Improvements to the **intersection of Elm St. and E. Broad St.** continue and are expected to be completed by summer. Although some lanes and parking spaces are closed, the intersection is open to traffic. The project is being funded by the state and carried out by the county and includes creating new sidewalk aprons on all four corners to shorten the distance pedestrians have to walk in crosswalks. New lights will be installed and timed better with the traffic light on Central Ave. and Elm St. as well as

Elm St. and North Ave. to improve traffic flow, and the lights will have pedestrian countdowns to let people know how much time they have to cross. Skoda Contracting has completed a gas main replacement on behalf of Elizabethtown Gas also before the area is repaved.

Work to rebuild **Trader Joe's** has begun. Trucks and workers can be seen on location and passersby are stopping to see what's going on. The public is excited to see progress!

Addams Tavern continues in their final efforts to complete this long awaited restaurant. A peak into the front door gives an early view of the long bar, built-ins, double height main room with

huge windows and high ceilings. Addams is now hiring staff. Apply online at www.harvestrestaurants.com/careers

Parking Tips to Enhance your Downtown Westfield Experience

When you visit Downtown Westfield, the DWC and the Town of Westfield want to ensure you have the best experience possible. Parking is most often the beginning and ending of your visit, so it's a good opportunity to remind patrons of the various parking options.

There are five Pay Station Parking Lots for longer term visitors to park up to a 4-hour (maximum) and cost only

\$.50 an hour. This gives you more time to shop at your favorite stores, eat at your favorite restaurants, watch your favorite movie at the theater or pamper yourself at your favorite salon! There is a lot to do in Downtown Westfield so it is always a good idea to pay for a little

more time than you think you are going to need! However, you can also add additional time up to four hours by utilizing the add parking time at any pay station around town regardless of where you initially parked. This is because each parking space in Westfield's parking system has a unique space number. For added convenience, parking lot pay stations take coins, dollar bills, credit cards and smart cards.

Parkers also have convenience of paying by smart phone using the MPay2Park app. With a parking locator on your mobile device, there is no need to worry about cash or credit card availability. Parkers can pay from the comfort of their vehicle, receive text message reminders, and add time from anywhere without having to go back to a pay station.

On-street parking is great for quick errands such as dropping off the dry cleaning or picking up a pizza! On-street meters have a 2-hour maximum and cost \$.75 an hour. If the meter is at 0...push the button on the meter before inserting money and receive 15-minutes of free parking.

If you visit downtown Westfield regularly, parking smart cards is another convenient option. Refillable parking cards for values of \$20 up to \$250 are usable at any on-street meter or pay station and refillable at the pay stations. The parking cards must be initially purchased directly at the Office of Parking Services, 425 East Broad Street, Westfield. Parking cards used at on-street meters to pay for parking can be reinserted in the meter to credit the time unused to the nearest 15 minutes back into the card balance.

Please call the Town of Westfield, Department of Parking Services with any questions at 908-789-4044. They are located in the Police Department at 425 E. Broad Street in Westfield or visit them at www.westfieldnj.gov.
