

Mayor Brindle's  
COVID-19 Update  
June 18, 2021

Regional Health Officer Megan Avallone reports that the state now has three regions in a low activity level (up from two last week), while the rest of the state -- including our Central East region -- remains at a moderate activity level. Locally, Westfield continues to show a low level of activity.

The state's seven-day average for new confirmed cases is down 4% from a week ago and down 73% from a month ago.

Statewide, vaccination rates have increased 37% from last week's rate, with an average of 47.3K doses administered per day. Today, Governor Murphy announced that New Jersey reached its initial goal of vaccinating 4.7 million people, and ranks seventh among all states in terms of the percentage of its population fully vaccinated (53%).

In Union County, 313,264 residents (56.3% of the total population) have received one dose of vaccine, and 267,539 (48% of total population) are fully vaccinated.

In Westfield, 92% of those 65 and older, 89% of the adult population (18+), and 70% of the entire population has been vaccinated with at least one dose. In terms of those fully vaccinated, the data shows 87% of those 65 and older, 81% of adults (18+), and 63% of the entire population.
