

Mayor Brindle's COVID-19 Update November 12, 2021

Regional Health Officer Megan Avallone reports that, once again, one of the six regions in New Jersey (our Central East region) is showing high levels of activity.

Locally, there were 38 cases identified in Westfield between November 5 and November 11. The age ranges are broken down as follows:

- Age 9 and under: 4 cases
- Age 10-19: 18 cases
- Age 20-29: 2 cases
- Age 30-39: 1 case
- Age 40-49: 4 cases
- Age 50-59: 7 cases
- Age 60-69: 1 case
- Age 70-79: No cases
- Age 80-89: 1 case
- Age 90 and above: No cases

The state's seven-day average for new confirmed cases is up 15% from a week ago and down 14% from a month ago. The statewide transmission rate is .98.

Statewide, vaccination rates have increased 11% from last week's rate, with an average of 38.6K doses administered per day. More 6.1 million New Jersey residents are fully vaccinated.

In Westfield, 96% of adults and 76% of our entire population is fully vaccinated. Additional breakdowns by location and age group can be found at nj.gov/health/cd/topics/covid2019_dashboard.shtml.

Last week, the Health Department vaccinated 100 5-11 year-olds, in what was the first of many pediatric vaccination clinics they will offer, and the first pediatric clinic to be held in Union County. Tomorrow, a vaccination clinic will be held at Roselle Park Middle School from 9:30 - 12:00 for ages 5-11, where the Health Department will have 250 vaccinations to distribute, and there will be another on November 19 at Evergreen Elementary School in Scotch Plains from 3:30 - 6:30. Information on County held pop up clinics can be found on the Union County website at <https://ucnj.org/covid19/vaccinations-page>.
